DIES, GOLFING Capt. Paul Glenn Trostle, 41, Camp Roberts, Calif., son of Mr. and Mrs. Harvey L. Trostle, 409 York street, collapsed Saturday afternoon while playing golf at the Atascadero golf club, near Paso Robles, Calif., according to an Associated Press Dispatch to The Gettysburg Times from San Francisco. He was taken to the Camp Roberts hospital, where he was pronounced dead on arrival. Death was believed due to

a heart attack. Capt. Trostle was a native of Adams county. He graduated from Gettysburg high school, where he starred in football and basketball, in 1928, and from West Chester State Teachers' college in 1932. He taught school at Kennett Square high school until 1942 when he enlisted in the army on June 22.

NATIONAL LOOP RACE TIGHTENS Hunterstown Green Springs

By JOE REICHLER

(Associated Press Sports Writer) At long last those smart-alecky managers perhaps knew what they were talking about when they predicted an eight-team dogfight in the National league pennant race. "Anybody has a chance to grab

it all," said Cincinnati's Luke Sewell last March in Florida. His words were echoed by Eddie Sawyer. Leo Durocher, Billy Southworth, Charlie Dressen and all the rest Here it is mid-May, with a month

Cincinnati and New York were chifly responsible for contracting the standings. The Reds twice subdued the St. Louis Cardinals, 7-2, 6-3, while the Giants swept a twin bill from the Phillies, 11-2 and 4-2 to climb past Eddie Sawyer's men into

Brooklyn displaced Boston in first place, overcoming the Braves, 12-6. Chicago and Pittsburgh swept past the Cards into a third-place tie dividing a doubleheader. The Cubs won the nightcap, 6-9, after Pittsburgh had walked off with a 2-1

The high and mighty Yankees, American league pace-setters, received a double-barrelled jolt when the lowly Athletics thrashed them, 5-4 and 9-6 in Philadelphia. Boston defeated Washington, 10-1, and Detroit, Chicago and Cleveland wound up in a three-way tie for third. The Indians whipped the White Sox, 11-2, while the Browns held the Tigers even in a twin bill, winning the first 13-10, and bowing in the nightcap, 5-3

Operating a professional baseball team in Pennsylvania is a precarious business, according to a Penn State economist.

Dr. Roger B. Saylor has come up with facts and figures which show that professional baseball is far from a paying proposition in many parts of the state

"At best baseball is a precarious business, but in 1951 the uncertainties are far greater than in the past five years," said Dr. Saylor, who has just completed a survey of professional baseball's outlook for this year in Pennsylvania. Backing up his contention that

professional baseball can be a risk in the state, he pointed to the fact that 26 clubs operated in two major and five minor leagues last year but only 15 fielded clubs this spring. Only four-The Philadelphia Phil-

BULLETS WIN AS BIG TEMPLE RALLY MISSES

recorded its sixth victory Saturday with a 8-7 win over Temple university but it had to put out an Owl rally that netted all seven runs in the ninth

Coach Ira Plank was presented a plaque by Robert Geasey, director of Public Relations at Temple, on behalf of Plank's more than 25 years of collegiate coaching. Ira, who is the oldest collegiate coach in the country from the point of years of service, is now in his 38th year.

In all his coaching experience, it is improbable that Plank has come as close to losing a game that his proteges had all wrapped up at the end of eight innings. With Don Young limiting the opposition to two hits and no runs for eight innings Temple broke loose in the ninth Two walks and an error filled the bases. Al Bracelente grounded to Young who tossed the runner out at home, Paul McKernan grounded to Young, too, but Don lobbed a high throw to catcher Bob Dickson that the latter didn't hold and two runs scored. A walk to Crossmore, a double by Charters and a single by Keyser netted three more runs.

Here Tony Socco relieved Young and tossed out the first batter but pinchhitter Haverstick, up for the second time, tripled to score both Charters and Keyser. Napolitano grounded out, third to first, to end the nightmare

It has been our privilege and pleasure during the past four swimming seasons to donate the pool free of charge to the Red Cross for their swimming classes.

Due to the cut-back of materials used in the treatment of the water and, also, the shortage of help caused by the national emergency, we are unable to make the same offer this coming season.

We deeply regret having to do this, but these are conditions beyond our control

a Safe and Sane TRUCK BILL Senate Bill No. 615

For nearly a quarter of a century Pennsylvania has limited (maximum) gross vehicle weights to 62,000 pounds. However, the wording of the law encourages use of the sprawling, unwieldy truck and full trailer and fails to recognize the efficient, more compact, more maneuverable tandem axle semi-trailer.

Senate Bill No. 615 would encourage use of the

modern, efficient tandem-trailer by assigning it a gross vehicle weight of 60,000 pounds, and would permit a gross weight on single axie-trailers of 48,000 pounds, WITHOUT EXCEED-ING THE PRESENT 20,000-POUND LIMITA-TION ON AXLE LOADS. Slight adjustments would be made in the gross weight of straight truck types within THE 20,000-POUND AXLE LOAD LIMITATION.

6 REASONS WHY IT SHOULD PASS:

It holds the line on Pennsylvania's 20,-000-pound axle load. Axle load means weight-on-highway at a given point. It is limited by law to avoid excessive wear and tear on the road. The new law would keep the same axle-load limit that has been in force for years -a limit that is on a par with, or under, the axle-load limits of other states in the industrial

It takes the profit out of overloading. • The present law FINES THE DRIVER \$25 or \$50 on an overload . . . and that's all! The new bill TAKES THE OWNER'S PROFIT with a \$100 flat fine PLUS \$2 for each 100 pounds of excess load above the five percent allowance for error, and IMPOUNDS HIS TRUCK if he doesn't pay the fine, holds it until he does. That takes the profit out of over-

It advances highway safety by RE-OUIRING trucks to have adequate brakes. Whereas, the present law makes no attempt to control truck brakes sizes, the new bill would REQUIRE at least one square inch of brake surface for every 55 pounds of gross load. Most trucks have better brakes than this . but the new law forces the laggards to come up to standard!

It promises fewer truck-caused tie-ups on hills. Two things cause traffic tieups on hills: one is out-of-date highways, inadequate for today's traffic, and the other is slow trucks. The new truck bill tackles this problem for the first time by REQUIRING all trucks to be capable of RFA 30NABLE SPEED, instead of a snail's pace, up hills.

It makes trucks bear a greater share of • highway costs. An increase in truck LI-CENSE FEES is one of the main features of the new truck bill. This mans that through the increased cost of license plates. TRUCKS WOULD CONTRIBUTE EVEN MORE than they have in the past to the expense of constructing and maintaining Pennsylvania's highways. (Truck taxes paid 167% of the highway maintenance costs in Pennsylvania in

It means more jobs for Pennsylvania in-• dustry. Our present out-dated truck law compels a Pennsylvania manufacturer to use four trucks to carry the same load his out-of-state competitor can carry on three! The new law gives the home-state producersfarmer, manufacturer or merchant - a better chance at the profits that BUILD BUSINESS AND JOBS IN PENNSYLVANIA. And at the same time, conserves equipment vital to the national defense.

Packards are built for priceless folks...like yours!

When the folks you love are involved . . . you could justify the purchase of a Packard on the basis of superior safety alone.

And if you're obliged to be budget-conscious-that still needn't deprive you of a Packard. Remember that the solid quality behind Packard safety has a dollarsand-cents payoff in many ways. For example:

• Packard Thunderbolt engines give you more than trustworthy reliability, and responsiveness that keeps you in the clear . . . They pay dividends with: the efficiency of America's highestcompression eights—and the service-free simplicity of a design with up to 25% fewer working parts than in engines of comparable power! • The famed Packard Limousine Ride gives you more than a matchless combination of gentle smoothness and firm, road-hugging safety . . . It pays dividends with: a "self-controlling" broadbeam suspension system that stays new for years -with no need for spring lubrication, no complicated shock-absorber maintenance.

• Packard's exclusive Ultramatic Drive gives you more than swift responsiveness, and complete control under all driving conditions . . . It pays dividends with: No gas-wasting slippage when cruising-and no service complications.

Those are just a few highlights of the mechanicallife story behind the human-life story of this new 1951 Packard. They help explain why, of all the Packards built-in the last 52 years-over 50% are still in service!

And they help prove that, even on a dollar basis, nothing short of a Packard is good enough for the priceless people in your life!

It's more than a car-it's a PACKARD
